

Steinbach Bible College COVID-19 Response Guidelines

These guidelines are being implemented to allow Steinbach Bible College (SBC) to run on-campus classes during the COVID-19 pandemic. We will be following guidance and direction from Manitoba Health Authorities and adapting our guidelines as necessary. The Manitoba Government has provided SBC with Canada's Guidance for post-secondary institution during the COVID-19 pandemic.

<https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/guidance-documents/covid-19-guidance-post-secondary-institutions-during-pandemic.html>.

The Manitoba government has established a mechanism to approve this plan and SBC is in ongoing dialogue with the Department of Economic Development and Training in order to ensure that the plan continues to meet requirements and verify SBC's ongoing adherence to federal requirements.

In the event of an outbreak, Public Health Authorities will contact the institution if needed and lead the response. Local public health authority will advise SBC if a confirmed case of COVID-19 was present on SBC campus during the person in question's infectious period, and assess the need for SBC or part of SBC to be closed for a period of time.

COVID-19 Team: sbccovidresponse@sbcollege.ca

The SBC COVID team meets weekly and coordinates our COVID response across all areas of SBC life. This team also works closely with the SBC Admin Team, especially in the event of a positive case at SBC. The COVID team consists of the following members:

SBC Office – Lara Funk. lfunk@sbcollege.ca

Academics – Sarah Barkman sbarkman@sbcollege.ca

Residence & Students – Randi Rempel rrempel@sbcollege.ca

Community Life & Events – Randy Krahn rkrahn@sbcollege.ca

SBC International Student Liaisons

Randy Krahn rkrahn@sbcollege.ca

Josh Dueck jdueck@sbcollege.ca

Campus Safety Principles

These principles apply to all students, staff, and SBC buildings.

1. We recognize that a "zero-risk" campus is not possible. These guidelines are being implemented to help us reduce the risk. We recognize that some students may be at higher risk than others and our goal is to manage risk safely and reasonably for everyone.
2. Students and Staff can always protect themselves as they see fit. Cleaning supplies, disinfectant, hand sanitizer and hand washing facilities are readily available.

3. Students and staff will be expected to consider the safety of the community. Reducing risk is a community effort that takes full commitment from everyone. Following these guidelines is the responsibility of each member of the community.
4. We will be following the guidelines set out by Manitoba Health and the Manitoba government. Our policies will adapt as necessary based on direction from these authorities. Current information about these guidelines can be found here: <https://www.gov.mb.ca/covid19/>. These three standards are in effect on our campus:
 - a. Stay home when you are sick
 - b. Practice frequent handwashing
 - c. Maintain physical distancing
5. The Manitoba government has implemented a pandemic response tool that uses colors green, yellow, orange and red. At each level, public health officials have a range of restrictions that could be imposed on post-secondary institutions. Information on Manitoba's Pandemic Response System is available at <https://www.gov.mb.ca/covid19/restartmb/prs/>.
6. As part of living in the SBC community, everyone will be expected to err on the side of caution, consider others, use common sense, and do their part.
7. In the SBC building, physical distancing always applies.
8. Training for all students and staff will occur before arrival and during orientation week. This training is found in SBC101 (screen shot snip below) and is mandatory for all students and staff and includes the following topics:
 - a. Appropriate hand hygiene and cough etiquette.
 - b. Effective disinfecting supplies and techniques.
 - c. COVID symptoms and [how to screen](#) for them.
 - d. How to put on and take off masks and gloves.
 - e. The expected response to a suspected or confirmed case of COVID-19.

COVID INFO FOR 2020-2021

COVID-19 Training Sessions

Session #1 - Living in Community

Session #2 - Campus Safety & Risk Management

Session #3 - Campus Walk-Through

COVID Response Policy

9. All students and staff must agree to follow these guidelines before participating in SBC community. Those found not in compliance will be disciplined following SBC's Due Process and policies for major and minor infractions found in SBC101.
10. On campus staff and students will need to wear a mask when required. Specific situations where masks are required include:
 - a. While in transit inside the SBC building, (hallways etc.);
 - b. En route to the Cafeteria;
 - c. In the Chapel (always);
 - d. When asked to do so by a SBC staff or faculty; or
 - e. Any time physical distancing cannot be maintained.
 - f. Masks may be required at all times inside the school building as directed by the Manitoba Government.

On Campus Guidelines:

These principles apply to all students, staff, and guests in the main SBC building, including the offices, classrooms, cafeteria, and library.

1. Everyone will be completing a short daily COVID Screening assessment upon entering the SBC building. The assessment asks the following questions:
 - a. In the last 14 days, have you travelled internationally or east of Terrace Bay, Ontario?
 - b. In the last 14 days, have you been in contact with someone that is suspected or confirmed to have COVID-19?

- c. Have you been directed by Manitoba Public Health Officials to be in isolation at this time?
 - d. Are you experiencing the new onset of any of the following symptoms: fever/chills, cough, loss of taste or smell, sore throat/hoarse voice, shortness of breath, vomiting or diarrhea for more than 24 hours, or poor feeding if an infant?
 - e. Are you experiencing a new onset of two or more of the following symptoms: runny nose, muscle aches, fatigue, conjunctivitis (pink eye), headache, nausea or loss of appetite, or skin rash of unknown origin?
2. SBC will be regularly sanitizing high traffic areas. Students are asked to sanitize common areas after use. Surface contact in high-traffic areas will be reduced wherever possible.
 3. Lounge Spaces will be open for use with limited occupancy and regularly sanitized. Use of common areas will require physical distancing standards to be maintained.

Responsibilities of Steinbach Bible College:

1. Have all staff/students/guest sign in with the SBC QR code or sign in at the reception desk. This allows SBC to support Public Health in contact tracing as requested.
2. Perform increased regular cleaning and sanitization throughout the facility (twice daily).
 - a. If someone leaves the building with symptoms, disinfecting of affected areas happens immediately as facilitated by someone from the COVID Team.
3. Limit contact with surfaces where possible.
4. Post appropriate signage.
5. Provide and facilitate training and orientation for students/staff.
6. Provide access to disinfectant and hand sanitizer.
7. Provide access to classes/study resources for individuals who are working/studying from home while isolating.
8. Retain up to date emergency contact information for faculty, staff and students, especially those who live in residence facilities.

Responsibilities of Every Individual:

1. To stay home when they are sick, taking the self-assessment to determine the necessity of testing when needed.
2. Maintain physical distancing in the SBC building.
3. Practice good hand hygiene and cough etiquette.
4. Everyone coming on campus must check in and answer the screening questions.
 - a. Students and staff can check in via a QR code available near the two main entrances and cafeteria entrance. They will also be required to sanitize their hands when entering the building.
 - b. All guests must check in at the front desk during office hours or use the Guest QR code posted in the entrances outside of office hours.
5. Sanitize lounge spaces and common areas after use.

- a. Common areas have sanitizing stations & signage with wipe-down instructions and cleaning supplies.
9. Follow all Public Health directives when off-campus and in public, recognizing that our actions may have a direct impact on others in our community.
10. Agree to follow these guidelines before participating in the SBC community.

Scenario Planning

A) If you are feeling ill with mild symptoms:

- 1) If a member of SBC's campus become symptomatic, they should seek medical advice and information about COVID-19 testing.
- 2) They must complete the [self-screening tool](#) from Shared Health and / or call Health Links - **Info Santé** in Winnipeg at 204-788-8667, toll free elsewhere in Manitoba at 1-888-315-9257.
- 3) They may choose to connect with the SBC COVID response team at sbccovidresponse@scollege.ca for additional support and medical advice.
- 4) If individuals are experiencing severe symptoms or difficulty breathing, they should call 911.
- 5) Based on test results, Manitoba public health officials will advise the individual what actions should be taken. For example, if COVID-19 test results are negative, they may be advised to isolate for 14 days, or until symptoms have resolved for 24 hours.
- 6) When a case of COVID-19 is confirmed, public health officials will lead the response.
- 7) The local public health authority will advise SBC if a confirmed case of COVID-19 was present on SBC campus during the person in question's infectious period, and assess the need for SBC or part of SBC to be closed for a period of time.
- 8) Local public health authorities will identify close contacts of a positive case and contact those individuals who may have been exposed.
- 9) SBC will close off areas used by the infected person and not use these areas until after cleaning and disinfecting is completed.
- 10) If there was no significant exposure on campus, SBC will not be notified.

B) Waiting for Test Results:

- 1) You may email sbccovidresponse@sbcollge.ca and indicate that you have gone for testing and are waiting for test results. Include the date and time of testing.
- 2) Continue isolating.
- 3) You may email sbccovidresponse@sbcollge.ca to report your negative test result.
- 4) If you receive a negative test result, you may leave isolation once MB Health has indicated you may and your symptoms have been resolved for 24 hrs.

C) Positive Test Result:

- 1) When you receive a positive test result you may email sbccovidresponse@sbcollge.ca marked "high priority" and report your positive test result.
- 2) Follow all directives from MB Health.
- 3) If you would like extra support you can contact Randi Rempel (students) or Lara Funk (staff) who are the designated SBC contacts.

- 4) SBC will also follow all directives from MB Health.
- 5) All close contacts identified through public health investigations will also go into quarantine, monitor for symptoms, and go for testing as directed by MB Health.
- 6) All members of the SBC community will continue practicing the fundamentals of staying home when sick, practicing good hand hygiene, and maintaining physical distance of 2 metres.
- 7) Any SBC communication notifying the community will be done following the lead of local and provincial public health officials.

D) Outbreak and Lockdown Protocol:

If multiple cases of COVID-19 occur as a result of community transmission:

- 1) All directives from Manitoba Health will be followed.
- 2) Any SBC communication notifying the community will be done following the lead of local and provincial public health officials.

E) If you have been in contact with a suspected or confirmed case of COVID-19 outside of the SBC Community:

- 1) It is preferred that you stay where you are, if possible, until it can be confirmed that you have not also been infected.
- 2) Contact your designated COVID Response Team member to let them know the situation in order for the risk level to be assessed and direction given.

Communication Guidelines

Accurate and clear communication becomes very important in these scenarios as there is a wide range of responses to the COVID-19 pandemic. We want people to be well informed of what is happening in their community while also not increasing fear and panic.

As members of this community we need to ensure that we are communicating in ways that are beneficial to the community and its members. This includes timely and appropriate communication to members of increased risk while also limiting communication with those outside of the community to avoid rumors and inciting fear. Gossip, slander, and stigma are unhelpful and potentially damaging to the community and the individuals involved.

Any SBC communication notifying the community will be done following the lead of local and provincial public health officials.

Arrival of Out of Province Students & International Students:

Pre-Arrival Requirements

The SBC International Student Liaison(s) will send students a pre-arrival package of information before they leave for Canada (Manitoba).

1. This pre-arrival package will include: [Information on current travel restrictions and exemptions, documents needed](#), accommodation information for on-campus and off-campus quarantine, transportation services, and [government of Canada's mandatory 14-day quarantine requirements](#).

2. Instructions will indicate it is best practice for students to [download the ArriveCAN app](#) to their mobile phone and enter their personal information up to 48 hours before arriving in Canada, and continue to use it to monitor symptoms for the duration of the quarantine period. This will help speed up the student's arrival through Immigration Canada at the port of entry, meaning the student will spend less time with border and health officers.

Quarantine Requirements

Current protocols state that anyone arriving from east of Terrace Bay, ON or outside of Canada need to isolate upon arrival for 14 days. Anyone who travels to those areas and plans to return to SBC will also be required to isolate for 14 days.

1. International students must quarantine for 2 weeks prior to the start of classes and must follow all quarantine directives as set out by the Canadian Government.
2. Information that may be helpful as you prepare this plan can be found in this video: [government of Canada's 14-day quarantine requirements](#).
3. Best practice is for international students and co-arriving family members to use the [ArriveCAN App](#) within 48 hours after arrival in Canada, and for their **daily symptom** reporting to the federal government.
4. SBC will assist commuter students in finding isolation accommodations on or off campus. Residence students will not have to find their own quarantine isolation location.
5. Individuals cannot isolate or quarantine in a place where they would be in contact with vulnerable persons. This means:
 - a. adults aged 65 and over
 - b. people of any age who have compromised immune systems or underlying medical conditions
6. They must isolate or quarantine in a suitable location where they will have access to the necessities of life; and are required to monitor their health for fever, cough and difficulty breathing.
7. The SBC International Student Liaison staff member is responsible to contact each International and out of Province student to ensure they have appropriate 14-day isolation or quarantine housing before they leave for SBC.
8. SBC will have a staff member bring the quarantining student groceries or meals from the cafeteria.
 - a. Students needing grocery and personal hygiene items delivered, will contact Student Services at sbccovidresponse@sbcollege.ca. Student Services will facilitate the following:
 - i. Student Services will inform the student to use one of the following stores to make their purchase:
 1. [Superstore's Click and Collect system](#),
 2. [Walmart Curbside Pickup](#)
 3. [Main Bread and Butter delivery service](#)
 - ii. The SBC staff member will deliver the products to the student's door and do a contactless drop off.

- b. Dorm students, are automatically on our meal plan and during their quarantine period, will be provided with three meals per day by the cafeteria staff using contactless delivery.

Daily Check In

1. The SBC International Student Liaison(s) (Randy Krahn and Josh Dueck) will daily check in with students in quarantine asking about their physical and mental health and will facilitate delivery of groceries, medical or personal hygiene items.
2. This check in plan will include a daily **direct ask** if the student / immediate family member quarantining with them is/are experiencing any COVID-19 symptoms, and remind them to take the self-assessment using the [Manitoba self-screening tool](#) and the [ArriveCAN application](#).

If a student experiences any symptoms for COVID-19 during the 14-day quarantine period:

1. While in quarantine, students are required to daily self-monitor for symptoms of COVID-19 using the [Manitoba Self Screening Tool](#).
2. If a student experiences any symptoms of COVID-19 during the quarantine period, they must follow the directives of the Province of Manitoba.
3. The Screening Tool is available in Interactive Voice Response (IVR) format. Call [1-877-308-9038](tel:1-877-308-9038) or find it [online](#).
4. The Province of Manitoba offers a service called Health Links – Info Santé, which is a bilingual phone-based nursing triage service. Health Links – Info Santé can give you advice on what health-care path should be followed in your specific situation. They can be contacted at [204-788-8200](tel:204-788-8200) or toll-free at [1-888-315-9257](tel:1-888-315-9257).

If a student tests positive for COVID-19 during the 14-day quarantine period:

1. They will need to self-isolate, unless they require medical attention and/or hospitalization.
2. Guard.me Insurance – Please refer to guard.me insurance (<https://www.guard.me/>) for eligible expenses and to contact Guard.Me and to submit claims online.
 - a. International Students will be sent full Guard.me coverage and contact information by email before they leave for Canada (See the “guard.me More Enhanced.pdf” and “guard.me More Enhanced Summary.pdf” documents).
 - b. SBC’s International students are enrolled in the Guard.me MORE Canada Enhanced package. The coverage includes Emergency and Non-emergency benefits. A complete list of services and benefits can be found in the benefit summary document.
 - c. To enrol in our Guard.me insurance coverage, contact Randy Krahn by email at rkrahn@sbcollege.ca
 - d. To contact Guard.me for a claim or for information, call 1-905-752-6220
 - e. For emergency procedures, contact the 24-hour Emergency Assistance Number: 1-888-756-8424

3. Any student or co-arriving immediate family member that tests positive can expect to be contacted by Manitoba public health officials and will be required to follow all further measures as set out by the public health official, which may include self-isolating beyond the initial 14-day quarantine period.
4. If a student tests positive for COVID-19 while quarantining with an immediate family member(s), the student will be separated from the family member(s) and will need to self-isolate. The family member(s) will need to move to another guestroom and will be monitored for symptoms of COVID-19 during wellness check-ins by SBC's International Student Liaisons. Family member(s) who had been quarantining with a student that tests positive for COVID-19 should expect to be contacted by Manitoba public health officials and will be considered a close contact to this case, and may need to continue to quarantine beyond the 14-day quarantine period.
5. If a co-arriving immediate family member tests positive for COVID-19 while quarantining with a student, the family member (s) will be separated from the student and need to self-isolate, likely beyond the family member(s) initial 14-day quarantine period. The student will need to move into another guestroom, and will be monitored for symptoms of COVID-19 during wellness check-ins by SBC's International Student Liaisons. The student should expect to be contacted by Manitoba public health officials and will be considered a close contact to the case, and may need to continue to quarantine beyond the initial 14-day quarantine period.
6. The unexpected guestroom and meal costs due to the student or family member(s) testing positive for COVID-19 will be the students' responsibility.
7. Manitoba public health will contact all cases and contacts daily and perform active daily monitoring on cases and contacts for the duration self isolation and will advise each when that requirement ends.
8. When you receive a positive test result a student may choose to email sbccovidresponse@sbcollege.ca marked "high priority" and report the positive test result. Requiring disclosure of personal health information is also inconsistent with protection and privacy of personal health information legislation.
9. The student must follow all directives from MB Health.
10. SBC will also follow all directives from MB Health.
11. Any SBC communication notifying the community will be done following the lead of local and provincial public health officials.

If a student tests positive for COVID-19 while quarantining with an immediate family member(s), the student will be separated from the family member(s) and will need to self-isolate.

1. The family member(s) will need to move to another guestroom and will be monitored for symptoms of COVID-19 during wellness check-ins by Residence Director Randi Rempel.
2. Family member(s) who had been quarantining with a student that tests positive for COVID-19 should expect to be contacted by Manitoba public health officials and will be considered a close contact to this case, and may need to continue to quarantine beyond the 14-day quarantine period.
3. The unexpected guestroom and meal costs due to the student or family member(s) testing positive for COVID-19 will be the student's responsibility.

If a co-arriving immediate family member tests positive for COVID-19 while quarantining with a student, the family member(s) will be separated from the student and need to self-isolate, likely beyond the family member(s) initial 14-day quarantine period.

1. The student will need to move into another guestroom, and will be monitored for symptoms of COVID-19 during wellness check-ins by Residence Director Randi Rempel
2. The student should expect to be contacted by Manitoba public health officials and will be considered a close contact to the case, and may need to continue to quarantine beyond the initial 14-day quarantine period.
3. The unexpected guestroom and meal costs due to the student or family member(s) testing positive for COVID-19 will be the student's responsibility.

Manitoba public health will contact all cases and contacts daily and perform active daily monitoring on cases and contacts for the duration self isolation and will advise each when that requirement ends.

Non-Compliance and Penalties

Any non-compliance with the 14-day mandatory quarantine under the federal Quarantine Act means that students may be subject to [fines and penalties established by the government of Canada](#) and government of Manitoba, and could result in reporting of quarantine breaches to the Canadian Border Services Agency.

As mandated by the Canadian Government, SBC will notify RCMP and / or local police if there is a violation of the quarantine requirements, per feedback provided by the Public Health Agency of Canada.

At the federal level, RCMP and local and provincial police can ticket travellers who break quarantine under the Contraventions Act, or charges can be laid against a traveller for breaking quarantine under the Quarantine Act, which can result in penalties of up to \$750,000 or up to 6 months in jail, or both.

COVID-19: Transportation Policy

This procedure should be followed by anyone needing to transport an individual who is a suspected or confirmed case of COVID-19. This procedure is also in effect for individuals who are required to self-isolate due to travel or exposure to a suspected or confirmed case of COVID-19.

SBC's transportation plan will meet the [government of Canada's self-isolation transportation requirements](#).

Because SBC is not located near the Winnipeg Airport and taking a taxi or other public transportation would not be feasible, students arriving in Winnipeg needing transportation to a quarantine location in Steinbach, are expected to arrange travel to their quarantine location with SBC staff sbccovidresponse@sbcollege.ca.

Transportation Basics

1. Transportation should only be required to move one student at a time to their quarantine accommodations or to access medical attention: The only exception is if the students have co-arriving immediate family members (where they resided together) and for homestay placements, as long as precautions are all in place.
2. Only vehicles that facilitate a 2-metre distance between driver and passenger will be used.
3. Drivers will self-monitor for symptoms before starting their shift.
4. Hand sanitizer and cleaning supplies will be available in school vehicles and be made available for drivers using their personal vehicle.

Upon Vehicle Arrival at Pickup

1. Before entering the vehicle, the driver will perform hand hygiene, put on mask (either cloth, disposable, or procedure) using approved methods, and perform hand hygiene again. Gloves can also be worn for additional protection using appropriate donning and doffing techniques.
2. A disposable drop cloth will be placed on the seat of the passenger.
3. Driver will remain in the driver's seat for duration of transport.
4. Open the vehicle windows (weather permitting) and use the vents of the vehicle to bring in fresh air from outside (avoid using the recirculated air option of the vehicle).
5. Passengers must be wearing a mask and will be asked to perform appropriate hand hygiene before placing luggage or other items in the rear of the vehicle and before being seated in the vehicle for travel.
6. Passenger will put all belongings in the trunk of the vehicle. If this is not feasible and passengers require assistance, use an alcohol-based hand sanitizer before/after (un)loading passengers' personal belongings.
7. Should a passenger require assistance getting in/out of the vehicle and/or with their seatbelts, limit the interaction to be as brief as possible, and use an alcohol-based hand sanitizer before/after assisting the passenger.
8. The passenger will sit in the back passenger-side seat to maintain 2 metre distance from driver.
9. The passenger will be asked to avoid touching places in the vehicle as much as possible.
10. The vehicle will not make any nonessential stops between the pickup and drop off locations.

Upon Vehicle Arrival at Destination

1. Upon arrival, passenger will exit vehicle and remove belongings. They will perform hand hygiene. The
2. Driver will remain in their seat.
3. The driver will perform hand hygiene and put on new gloves.
4. The vehicle will be disinfected by the driver.
5. If unsoiled, the drop cloth will be folded in on itself and placed in a garbage bag to sit for 72 hours. If soiled, the drop cloth can be placed in a garbage bag and thrown out.
6. The driver will clean and disinfect the vehicle after each drop off. All door handles and other touch points will be wiped and disinfected including those touched by the driver (and keys).
7. It will be noted in the vehicle log that it transported a suspected COVID case and confirm that disinfection occurred afterward.
8. Driver will remove and dispose gloves into a sealed bag, perform hand hygiene, remove and dispose of mask, and perform hand hygiene again.

Student Supports During Quarantine or Self-isolation

During your 14 day quarantine the following student supports and connecting points are in place to serve you:

- Your SBC International Student Liaisons are Randy Buhler (RKrahn@sbcollege.ca) and Josh Dueck (JDueck@sbcollege.ca). You can call them at 204-326-6451. Randy and Josh are your connection to the Student Services Team. You may also email sbccovidresponse@sbcollege.ca you have any support questions.
- SBC's International Student Orientation facilitates connection between students and the institution of SBC. We provide information about Health Insurance coverage, banking, phone plans, grocery shopping, medical clinics, and the culture of our city. We also resource our students with tools for academic success, physical health, and social connection.
- The International Student Bursaries (ISB's) are available to full-time international students. To learn more and apply [click here](#).
- Student Counselling – SBC will cover the full cost of the first counselling session with any local accredited counsellor and. All subsequent 5 sessions are covered at a rate of 75% by SBC and 25% by the student (approximately \$20/session).
 - Aly Giesbrecht Counselling is a licensed counsellor who regularly works with SBC students. You can reach her at alygcounselling@gmail.com or www.alygiesbrechtcounselling.ca.
- Ministry Formation Groups (MFG's) help build student relationships and strong community. Each student is assigned to a MFG led by a faculty member. This faculty member is responsible to reach out and include our quarantining students as much as possible during MFG meeting times.
- Daily Chapels - SBC chapels exist to promote and encourage the spiritual nurture of students and the college community through inspirational times of remembrance and reflection, celebration and praise, and confession and lament. Many of these chapels are available to be joined online while in quarantine.
- Academic Help - If you are struggling with your studies, please contact Reena Nerbas, SBC's Student Success Coach (RNerbas@sbcollege.ca) to set-up an appointment. As needed, students may join the Student Success Center where Reena meets regularly with students needing academic assistance. Reena may also connect you with a tutor.
- Health Links - Info Santé in Winnipeg at 204-788-8667, toll free elsewhere in Manitoba at 1-888-315-9257.

Classrooms & Classes

SBC will follow all the Manitoba Government guidelines that have been set for Post Secondary Education. This will include group sizes as well as classroom spacing.

Students/staff may be required to advise the institution about missing classes/work, but it should be noted that local public health officials will reach out to institutions if they determine it is needed, rather than the student/staff being required to disclose their personal health status to the institution.

Large Group Assemblies

SBC will follow all the Manitoba Government guidelines that have been set for Post Secondary Education as well as gathering limits that have been set by the Province. Our gatherings and events will follow these provincial guidelines. More information relating to specific events will be communicated when necessary.

Cafeteria

1. Students are to arrive with masks on and sanitize hands prior to sitting down and after they are done as they leave.
2. Students will be asked to eat in their dorm family units and tables will be spaced 6 ft. apart or they may eat physically distanced from others.
3. They will be called up to the serving line table by table, keeping physical distancing in place.
4. Food Services staff will serve the student their food, beverage and cutlery a tray.
5. Second helpings will be served after first helpings are finished. Students will be required to re-sanitize hands and get a new plate.

Social Stigma

At SBC we will not label, stereotype, discriminate against, or treat separately due to a disease. We will not gossip, slander, or threaten anyone who has symptoms or has contracted COVID-19.

Discrimination toward members of the SBC community who have symptoms of COVID-19, or who have received a positive test result, or those who may have been in contact with someone who has received a positive test result for COVID-19, or people from a specific ethnic group or areas with higher COVID19 rates will not be tolerated.

The SBC [Community Covenant](#) commits all members to upholding the gospel of grace, and this extends to people who have been exposed to COVID-19. People who are found to be discriminatory or malicious will be held accountable.

Students at SBC will be exempt from discipline if they reveal that they have violated areas of the Community Covenant, Code of Conduct or Residence Guidelines related to consumption of drugs, alcohol, open dorm rooms, sexual intimacies and other similar violation, insofar as they relate to possible exposures to COVID-19. We will provide the same care and concern for each student that requires medical or emotional assistance.
